

## Environmental goods list and cataloutue

Cataloutes	Sub-catalog ue	HS CODE (2002)	Name of EGs	Description of EGS
Indoor Environmental Goods	Indoor Air EGs	841451	Wind turbine, fan	Desk fan, floor fan, wall fan, ventilator, including an engine of no more than 125W
		841459	Other wind turbine, fan	Ventilator, fan, centrifugal ventilator exclusive of 8414.51,
		841581	Air conditioner, with fan and temperature adjustor and humidity adjustor	With cooling device and a cool and heat cycling valve (reversible heat pump)
		841583	Ventilator (mainly indicting air conditioner)	Without cooling air conditioner

		841510	Electric fan	For indoor use
		847989	Air humidity increasing and reducing device	For indoor use
		842139	Gas filtration,refine devices	For indoor use
	Indoor water Egs	851679	Electric drinking water device	For indoor use
		842121	Liquid filtration,refine devices	For indoor use
	Indoor solid Egs	850980	Family waste treatment machine	For indoor waste treatment
		842211	Domestic washing machine	For indoor use
	Other Egs	320990	Waterman ship painting	For indoor wall painting

		841821	Electric or non-electric refrigerator, freezer and other refrigerating device	Electric refrigerator using R600a as refrigerant
		851650	Micro wave oven	High heat efficiency with energy saving and emission reduction
		851660	Electromagnetic oven	High heat efficiency with energy saving and emission reduction
		392630 442090 841891 940310 940320 940330 940340 940350 940360 940370 940380 940381	、 furniture (metal, Wood and willow quality)	Except plastic furniture

		940389		
		340520 321490 441830 441872 441879	、 House decoration materials 、 、 、	wood floor, polishing
Conventional EGs	Conventional AIR EGs	840420	Condensator with water steam and other steam power devices	
		840490	Boiler supplements, water steam condensator, supplements for steam power devices	Hardwares for repair and maintenance
		840510 (8405103)	Coal gas generator, no mater with or without purification device, ethane generator, and	Only includes those with purifying devices

			similar gas generator	
		841410	Vacuum pump	For transportation or take out air pollutants, eg, industrial cover for waster air or dust
		841430	Compressor for refrigeration devices	Compressor using for air treatment
		841440	Air compressor attached to trailer under pan	Air compressor for transportation or taking out air pollutants, corrosive air or dust
		841459	Except dust fan, floor fan, wall fan and other electric fan, with adust power no more than 123 watt	Optional air compressor for transportation or taking out air pollutants, corrosive air or dust

		841480	Air pump, air and other gas compressor (except 8414.10-8414.59 ) ; ventilation cover or cycling cover with fan, no matter with or without filter (except 8414.60)	Industrial air cover, ventilation cover, fan and , diffusing devices
		841490	Compressor of air pump or vacuum pump; ventilation cover or cycling cover with fan, no matter with or without filter	Parts of 841459x. 841410x 、 841440 and 841480x
		841960	Liquid air compressor	All kind of oxygen making machine, liquid compressor or liquid chlorine compressor
		841989	Experimental devices used for material treatment by temperature change, for example: heating,boiling,drying , distil,rectifying,	Devices for evaporation and drying for water and waster water treatment,condensation device and cooling tower, methane generator, methane refine devices

			sanitizing, sterilizing, steaming, condensation, cooling, no matter electric or not, except domestic electrical devices	
		842139	Gas filtration, refined devices (except the air intake filter of internal combustion engine)	Catalyzing air exhausting device/gas separator device/550kPa
		902610(EU)	Devices for measuring liquid or gas flow, liquid level, pressure or other changes	Air quality monitor, dust emission monitor
	Conventional water EGs	560314	No textile material,	Filler drain tray, textile of polythene or nylon for filtrating waste water. (like PE, PP,))

		691010	Pottery washing pool,bason, bason shelf,bathtub, toilet bowl, water pot,urinal, etc.	urinal, fertilizer treatment room
		730300	Cast iron tube, hollow profiled par	cast iron pipe, basin, maintainance hole used for waster water and drinking water
		730431	seamless steel tube and hollow profiled par ( except cast iron ): except the tube for petroleum and natural gas	Steel and iron tube used for aster water and drinking water and maintainance hole

		730640	Other steel tube and hollow profiled par(weld, rivet and other)	Steel and iron tube used for aster water and drinking water and maintenance hole

		730900	Steel and iron container, tank, kettle for materials, except compressed air or liquid (air), volume over 300 l, no mater with or without liner or heat insulation, but without machinery or heating power device;	Optional: tank or kettle for biomass aerification, solar energy preheating container, municipal hazardous waste storage, device for drinking water storage, putrefaction storage for waste water treatment.
		731010	Steel and iron container, tank, kettle for materials, except compressed air or liquid (air), volume over 300 l, no mater with or without liner or heat insulation, but without machinery or	Waste storage container for storage of municipal or hazardous waste

			heating power device ; volume over 50 l, organic material compound	
		731029	Steel and iron container, tank, kettle for materials, except compressed air or liquid air), volume less than 300 l, no mater with or without liner or heat insulation, but without machinery or heating power device; volume less than 50 l, other (exclusive of machinery or heating power device, other tins sealed by weld or perm, volume less than 50 l	Waste material container, no matter with or without crushing machine

		732490	Sanitation wares made of iron and steel: except 732410—732429	Water-saving shower, toiler wares, urinal, including drying device
		732510	other steel and iron wares, no cast iron	Waster water system
		732690	Other steel and iron wares	Vulva at sinkhole for water filtrate
		841320	Hand pump	Except those in category 8413.11 or 8413.19
		841350	Other ping-pong liquid exhausting pump	Optional: pump for waste water treatment
		841360	Other circulating liquid exhausting pump	Diving commix pump, srew shape, water run-off no less than 3m/3min.
		841370	Other centrifugal machine	centrifugal machine for erosion prevention, output of engine no more than 0.4 kw

		841381	Liquid pump, no matter with or without measure device; other pump	Optional non-full tax items: pump with wind turbine, solar energy pump
		841939	dryer, other	Sullage dryer
		842121	Liquid filtration, refine devices: for filtrate or refine water	Other non-domestic filtration or refine water devices,; dehydration machine, filtration device for spray irrigation devices
		842129	Liquid filtration, refine machine and device	Press and filtrating methane; Other liquid filtration. refine machine and devices, vacuum rotation filtration machine
		842199	centrifugal machine , including centrifugal dry machine, liquid or gas filtration, refine machine and devices: parts ( not centrifugal machine, centrifugal dry machine): liquid or gas filtration, refine	Including parts under 842121 and 842129.

			machine its devices and parts	
		842833	Other elevator or transfer machine for successive goods or material transfer	Optional non-full tax item
		848110	Decompressing valve	Decompressing valve for tube, boiler, tank, tin and similar parts; decompressing valve of sprinkling devices for tube, boiler, tank, tin and similar parts; other decompressing valves(for tube, boiler, tank, tin and similar parts)
		848120	Faucet, revolving stuff, valve and similar parts for tube, boiler, tank, tin and similar parts, including decompressing valve and thermostatic	Including faucet, revolving stuff, valve

			regulator (not parts)	
		848130	Check valve	Check valve ( for tube, boiler, tank, tin and similar parts); one way corrosion resisting valve ( with check hole, the contact surface is made of special material); other check valve(for tube, boiler, tank, tin and similar parts)
		848140	Safe valve, or overflow valve	for tube, boiler, tank, tin and similar parts
		848180	Other devices for tube, boiler, tank, tin and similar parts	Other valve(for tube, boiler, tank, tin and similar parts), multi-level corrosion resisting valve; one way corrosion resisting valve; servo valve(absolute pressure $\geq$ 7000KP/h flow volum $\geq$ 24L/M, reaction time $<$ 100); corrosion resisting UF6 valve and control ripple valve; valve sealed by ripple tube; adjust valve(for tube, boiler, tank, tin and similar parts); other unknown

			valve(for tube, boiler, tank, tin and similar parts)
		848190	Faucet, revolving stuff, Hardwires for valve(for tube, boiler, tank, valve and similar parts tin and similar parts); faucet, revolving for tube, boiler, tank, stuff, valve and similar parts for tube, tin and similar parts, boiler, tank, tin and similar parts, (for including decompressing tube, boiler, tank, tin and similar parts) valve and thermostatic regulator
		854389	Other electric devices Ozone generating system, ultraviolet and equipments with radiation sanitation/treatment system for independent functions water supply not listed in chapter 85
		854390	The machine and devices Hardwares including in 854389x hardwires included Tax No. 85. 43

	Conventional solid EGs	392010	Board, flake, film, foil, and slice made of non-ethane polymer, not using other material for strengthen, lamination; foam board, flake, film, foil, and slice made of polyethylene, unstrengthened and laminated	High density polyethylene or soft film for landfill liner, used for methane collection; plastic film and polypropylene film for soil and water loss, and soil antiseptis
		761290	container, tank, kettle, box and similar vessels for materials (including soft and hard tube container) made of aluminum), (except other for compressed air or liquid air), volume no more than 300 liter, no matter with or without liner or heat insulation, but without machinery or heating power devices	Waste container, including municipal waste or hazardous waste

		840219	Steam boilers (except the warm water boilers producing low pressure water steam for central heating ) ; excessive heating water boiler, and the boiler hardwares under item 840211 – 840220	Biomass boiler
		840290	Steam boiler (except the warm water boiler producing low pressure water steam for central heating ) ; excessive heating water boiler	Hardware under tax category 840219x
		840410	Boiler supplementary device under item 8402 or 8403 (eg, heat saving device, overheating controller, dedusting machine, gas recycling device); condensator of	hard wares matting 840219x

			water steam or other steam power	
		841780	Other industrial or experimental boiler and oven, including incinerator, non-electric heating	Optional non-full tax items: waste incineration, heating or catalyzing incineration boiler
		841790	Parts. industrial or experimental boiler and oven, including incinerator, non-electric heating	Optional non-full tax items: parts under item 841780x
		841940	Distilling or rectifying device	Optional non-full tax items: may include: de-sult system; methane refine system; defluence and recycle system
		842220	Bottle and other container washing or	Full tax item

			drying machine	
		842290	Bottle and other container washing or drying machine: parts	Parts under item 842220
		842940	Tamping machine and road roller	Mechanizing landfill compactor
		846291	Hydraulic press for metal process	Cut-off machine/briquetter/pressor
		846596	Cutting, sliceing, scrape machine	Cutting, sliceing, scrape machine (easy to carry or recycle (muller/crushing machine) , portable wood and waste recycling machine))
		846599	Other unclarified machine	Parts of cutting, sliceing, scrape machine (for lop, peel and cut machine (portable recycling, mulling or crushing machine))

		846694	Parts and fittings, all or part for the machines under item 84.62 or 84.63	Parts under item 846291x
		847420	Break and crashing machine	gear roller smash and mill machine, gear roller cement kiln ; other gear roller smash and mill machine, gear roller cement kiln; crashing or milling machines ; gesso calcining gear roller machine; decompond equipment outside cement kiln
		847982	Machine in chapter 84 for mixing, stiring, breaking, smashing, milling, filtrating, emulsification	Waste sorting. selecting, smashing, milling, cutting, washing and compressing devices, stirrer for waste water treatment, fast mixer, flocculating machine
		847989	machine with independent function not detailly listed or included in this chapter	spiral-flow type sand removal machine, under item 84798990、aerator、compressing device for waste transfer station

		847990	Machines and parts under item 4.79	Parts under item 847982x and 847989x
		850590	Others, including parts	Parts for electromagnet, magnet separator; Suspend magnet and magnetic drum
		851410	Resistance heated Stove and oven	Optional non-full tax item may include::waste incinerator or heating catalyze incinerator
		851420	Stove and electric dry oven by induction or medium consumption	Optional non-full tax item may include::waste incinerator or heating catalyze incinerator
		851430	Other stove and oven	Optional non-full tax item may include::waste incinerator or heating catalyze incinerator
		851490	Industrial experimental electric stove and electric dry oven and parts ; other	Optional non-full tax item may include::parts under item 851410x, 851430x and 851430x

			equipments for heat treatment by induction or medium consumption	
	2.4. water and soil purification or recovery	842119	centrifuge , including hydro extractor , not including butter separator and dryer	Milk skimmer
		842191	Parts of centrifuge, including hydro extractor	Parts under item 842119x
		851629	Electric space heating and soil heating device	Electric soil heating device
		890790	Other floating structures ( eg , raft, tank 、 diving box, floating pier、 buoy and navigational mark)	Pollution preventing fence, oil absorbing fence, oil collecting fence

2.5 environmental friendly goods, based on final usage and treatment	530310	Hemp, raw or processed but not spun; short hemp fiber ( including waste hemp yarn and recycling fiber)	Raw or soaked hemp, other weave fiber( not including flax,hemp,ramee)
	53050091 (original No. 530410)	Sisal and fibers of other cantury plants	Full tax item
	53050091 (original No. 530490)	Sisal and fibers of other cantury plants processed but not weaved; the short fiber of above mentioned fiber and waste hump ( including waste yarn and recycled fiber)	Full tax item
	560710	Thread, rope, cable, no matter intertexting or knitting , or no matter wrapped with plastic , cloth, hemp or other bast	Full tax item

			fiber under item 53.03	
		560721	Thread, rope, cable, no matter intertexting or knitting , or no matter wrapped with plastic , cloth, hemp or other bastl fiber: sisal and fibers of other cantury plants: rope for wrap:	Item 5607210010 wrap rope make of sisal and fibers of other cantury plants; Item 5607210090 wrap rope make of sisal and fibers of other cantury plants
		630510	Bags for goods, hemp or other bast fiber under item 53.03	Old goods bag made of hemp (including products made of other bast fiber under item 5303)
		871200	Bicycle and other non-maneuverable bicycle and other bike( including tricycle for goods)	including: race bicycle, mountain bicycle; 16、 18、 20 inch cross-country bicycle; other cross-country bicycle including tricycle for goods and unlisted bikes of 16inch and below
		871491-87149	Bicycle parts,	Including : non-maneuverable bike frame、 wheel fork、 rim、 spoke hub、 flywheel、 saddle、

		9	supplements	pedal, brace, chain wheel, break and other parts
2.6 natural risk management		901540	Photographer, measure equipments	All products under this item
		901580	Other measure equipments not including compass, watercourse measurement, weather forecasting equipments or physical geographic equipments and device; other unlisted devices in chapter 90.15.	Airborne or ship borne gravimeter (precision 1 milligal or less, stable record time more than 2 minutes); other measure equipments and devices
		901590	Parts and supplement for instruments and devices listed in chapter 90.15	Parts for 901530, 901540 and 901580.
natural resources protection		560811	Fishing net made of chemical fiber	Referring to fishing net with lustrating device

		560890	Net material made of thread, rope or cable; fishing net or other net made of textile materials, except fishing net made of chemical fiber	airplane auto driving system
		950720	Fish hook, no matter with or without snags	Cycle hook
	2.8 De-noise and vibration dumping	842139 701931	De-noise and de-dust equipments	Non-full tax item may including: catalytic gas exhausting purifier/gas separator/air flow filtrate with 50kPa or over /industrial gas purifier/static filtrate; for building noise and heat insulation
		450410	Pressed cork and its products: board, wood block, tile, and its products	Cork under shin board

		840991	Specially used for the parts of engines listed under tax NO.84.07 or 84.08	Industrial silencer
		840999	Specially used or mainly for the parts of engines listed under tax NO.84.07 or 84.08	Industrial silencer
		903110	Balance test machine for mechanical accessories	Including gyroscope dynamic equilibrium instruments
	2.9 环境评估设备 environmental monitor, and assessment equipments	901530	Gradient, watercourse survey, instruments for ocean and meteorological use	gradienter for environmental purpose
		902610	Equipments and devices for liquid flow and liquid level measurement	Air quality monitor and dust emission monitor

		902620	Equipments and devices for pressure measure, test and inspection	
		902680	Other equipments and devices	Full tax item
		902690	Parts and supplements under item 9026	Full tax item
		902710	Gas and smoke analyzer	
		902720	chromatographic instrument and electrophoresis apparatus trophoresis	

		902730	Spectrometer , profilometer and spectrograph	full tax item
		902740 90278091 (ori ginal tax No: 2740)	exposure-meter	full tax item
		902750	Other equipments using optic ray (ultraviolet radiation, , visible light, infrare	electrometer
		902780	Physical or chemical analysis equipments under tax 90.27	Optional non full tax item, including: analyze noise, air, hydro-carbon compound, heavy metal in soil
		902790	the mirror of the slice under item 90.27;	Optional non-full tax item, including parts under item 902710 and 902780x

		903010	Equipments or instruments for ionic rays measurement	full tax item
		903020	cathode ray oscilloscope	general purpose oscilloscope of less than 300 MHZ, other oscilloscope
		903031	multi-meter	Five digital multimeter, without record device, other multi-meter
		903039	Other equipments and instruments for voltage, electricity flow and resistance measure, with no recording device	Optional non-full tax item, including voltmeter, ammeter, multi-meter, resistance meter
		903083	Other instruments for electricity capacity measure, with no record device	Inductance and capacitance measurements( with record device ); other equipments and instruments for electricity quantity measurement( with record device); digital, simulating IC test platform; other

				electricity quantity measurement
		903089	Other equipment and instruments for electricity capacity measure	Neutron detecting and measuring meter( specially used for neutron flux in nuclear reactor; other electricity quantity measurement( without record device ); other inductance and capacitance measuring instruments( without record device )
		903090	Parts and supplements under tax No 90.30	Optional non- full tax item, including parts and attachments under tax No 90.30
		903120	Text table	gyroscope /motor running text platform, acceleration test platform; drive-test platform, (rocket engine thrust > 90KN, 3 thrusts test simultaneously) ; inertial platform test ( including high-accuracy centrifuge and rotating platform) and other test platform
		903130	Outline projector	full tax item

		903149	Other measure and test instruments and tools unlisted in other items in this chapter; other optical instrument for measure and inspection	On and off line CD check instruments; other optical instrument for measure and inspection
		903180	Other equipments, tools and machines	Optional non-full tax item, including : vibration meter
		903190	Equipments, devices and parts and attachments Under 90.31	Optional non-full tax item, including: parts under 903180x
		903210	hemostat	full tax item
		903220	manostat;	full tax item
		903281	Hydraulic pressure or air pressure devices	full tax item

		903290	Parts and attachments under item 90.32	Parts and attachments for auto-adjust or auto-control equipments; parts for airplane auto driving system; other auto=adjustments
		903300	Equipments, instruments, devices listed in chapter 90	Parts for airplane auto driving system, ( including parts of auto-drive, electro-control flying, auto failure analysis, alarm system thrust monitoring and related instrument meters ); other unlisted parts and attachments in chapter 90 (including the machines, tools, instruments and devices listed in chapter 90
3. global environmental	3.1	841919 903289 732190	Other machines, devices and experimental equipments which treat materials by temperature change ( except domestic use); non-electric fast water heater, reserving water heater	Solar thermal water heater, heat collector, pressure-bearing or unpress-bearing solar energy heat collection system ( for warm water or thermal energy supply )

products	732290	Other non-electric heat emitter or parts made of iron and steel for central heating, air heater, heat emitter (solar air heater)	full tax item
	700719	seal for Low iron steel solar cell	Require for maximum iron content
	850300/852310/848340/848360	Wind power generation device	paddles for wind power generation equipment; cylinder roller bearing for wind power generation ; gear-box for wind power generation; driving parts or supplements for wind power generation; the engine parts listed in sub item 85023100; engine sets driven by wind; roller screw transmission devices; gear decelerator; clutch and coupler (including gimbals)
	841011/841012/841090/850239	Micro or small hydro power devices	Parts under item 841011/841012/841090/850239

		239		
		3920620009	Other polyethylene terephthalate board, film (including foil, flat bar, non foam materials,withour strengthened or pressed by other materials)	Polyester film(BACK SHEET)
		8311300000	spread by soldering flux or cored base metal bar or thread (brass solder or gas welding )	COPPER WIRE
		3920620009	Other polyethylene terephthalate board, film (including foil, flat bar, non foam materials,without strengthened or pressed by other materials)	(EVA SHEET)

		8536900000	Other electro circuit switch $\leq$ 1000V	JUNCTION BOX
		8536900000	Other electro circuit switch $\leq$ 1000V	JUNCTION BOX
		854140 (8541405)	Other photosensitive semi-conductor parts(including in set or packed optoelectronic cell)	SOLAR MODULES
		730820	Tower and lattice bars	Wind turbine tower
		732111	Solar energy driven non electric heating steel domestic oven 、 stove(including boiler for heating) 、 grill stand、 bake oven、 gas cooker、 heating board and similar domestic	full tax item

			households and parts	
		271111	(LNG)	full tax item
		761100	Steel and iron container, tank, kettle for materials, except compressed air or liquid (air), volume over 300 l, no mater with or without liner or heat insulation, but without machinery or heating power device;	Optional non-full tax item may include: tank, pot used for anaerobic digest, so as to make biomass aerificated; tin , jar or container for waste water or drinking water; and storage container for preheating of solar energy
		840681	steam turbine (exclude steam turbine for watercraft power ) : output over 40MW	Optional non-full tax item may include: static steam turbine over 40MW ; micro herm/low pressure steam turbine for geothermal pump system; steam turbine for combine power generation

		840682	steam turbine ( exclude steam turbine for watercraft power); output less than 40MW	Optional non-full tax item may include: static steam turbine less than 40MW; micro herm/low pressure steam turbine for geothermal pump system; steam turbine for combine power generation
		840690	Parts for steam turbine	Optional non-full tax item may include: parts suitable for static steam turbine over ; static steam turbine no more than 40MW, other steam turbine; parts under tax item 840681x and 8406
		841011	Water-Turbine Engine less than 1000 KW and water wheel	full tax item
		841090	Water-Turbine Engine and water wheel and adjuster; parts including adjuster	Parts under tax item 841011
		841181	Other gas turbine less	Full tax item

			than 5000 KW	
		841182	Other gas turbine over 5000 KW	Full tax item
		841919	Non-electric fast water heater or reserving water heater	Solar water heater, heat collector, pressure-bearing or non pressure-bearing solar energy heating colleting system(for warm water supply or thermal energy supply)
		841990	Parts of machine, equipments and instruments under item 84.19	Optional non-full tax item may include: parts under item 8419.19ex, including boiler/water heater ; insulated , solar energy boiler/temperature sensor for water heater; solar energy boiler/different temperature controller; heating tube, parts under item 841940x,841950x,841960x and 841989x
		848340	Gear and gear transmission device , except separated gear、chain wheel and other transmission parts; ball bearing or roller screw	Gear case for wind turbine

			transmission; gear case and other shift gears, including torque converter	
		848360	Clutch and coupler (including gimbals)	clutch and coupler fixed to wind turbine for power generation
		850161	AC generator with output less than 75 KVA	Full tax item
		850162	AC generator with output over 75 KVA but less than 375 KVA	Full tax item
		850163	AC generator with output over 375 KVA but less than 750 KVA	Full tax item
		850164	AC generator with output over 750 KVA	Full tax item

		850231	Other power generation set: wind driving	wind power generation equipments
		850239	power generation set and rotary inversion converter	Optional non full tax item may include: thermal and electric power system using biomass/用生物质和/methane; portable solar power generation system; subassembly of solar power generation; small hydro power device; tide power generation device; gas turbine using biomass device
		850300	Parts fully used for machine under tax item 85.01 or 85.02	Parts under tax item 850231 and optional non-full tax item including: 850239x.
		850440	Static inversion converter	Used together for machine under tax item 850239 and 854140, inversion converter for power generation

		854140(85414020(tax item in 2008 is 85414000))	Photosensitive semiconductor , no matter fixed in assembly or packed photo galvanic cell; LED	Photo galvanic cell, subassembly and board
		900190	optical fiber and optical fiber bundle ; optical cable, except goods under tax No. 85.44; pieces and boards made of polarization materials; unassembled les made of every kinds of materials (including contact lens)、prism、speculum and other optic elements, except unprocessed glass elements	Solar energy colleting system

		900290	All kinds of assembled lens, prism, speculum and other optic elements, except unprocessed glass elements, parts and fittings for equipments and instruments, except unprocessed glass elements, other assembled prism, speculum and other optic elements, not detailly indicated	Solar energy spotlight system
		903289	Auto-adjust and auto-control equipments	Optional non-full tax item may include: heliostat、temperature sensor for solar energy boiler/ water heater, different temperature sensor for solar energy boiler/ water heater
		853710	Plat, board, platform、tank and other bases, with 2 or more devices listed under tax No 85.35 or	Photoelectricity systematic controller

			85.36 , applicable for circuit less than 1000 V	
		850720	accumulator, including dap board, no matter rectangle or not ( including square ), lead-acid accumulator (except 8507.10)	Deep discharge (solar) cell
		841861	Compressed refrigerating, freezing equipments, compressor is the exchanger of heat; refrigerating, freezing equipments unlisted in item 84.18; heat pump and air adjuster with refrigerating device and heat and cold circulation valve ( reversible heat pump)	Geothermal pump

3.2 climate friendly products—thermal energy and energy management	857510\854140	LED lamp、energy saving lamp	Excluding ordinary lamp
	940540	searchlight、focus light、other light and illuminance equipment	Including chirurgery lighting equipment
	701931	fiberglass ( including cotton glass) and its products ( , fiberglass yarn or its textiles: mat	Mat used for sound and heat insulation of buildings
	841950	Heat exchange device, no matter with or without electric heating	Optional non-full tax item may include: thermal exchange machine used in renewable energy system
	902810	Air quantity meter , includes its calibration instrument	Gas meter(including its calibration instrument )and other gas meter(includes its calibration instrument
	902820	Water meter, includes its	Optional non-full tax item may include: water

			calibration instrument	resources consumption meter
		902830	watt-hour meter)	Single phase induction meter(includes its calibration instrument); trinomial induction meter(includes its calibration instrument); Single phase induction meter static, (includes its calibration instrument); trinomial induction meter, static, (includes its calibration instrument); other electric meter(includes its calibration instrument
		902890	Parts and attachments under item 9028	Optional non-full tax item may include: parts under tax item 902810, 902820[x]和 902830
		850680	Other primary battery and primary battery sets	full tax item
		854140	Photosensitive semiconductor, no matter of photo galvanic cell in sets: LED Light-Emitting Diode	Photosensitive semiconductor、LED Light-Emitting Diode、solar cell、other Photosensitive semiconductor parts

		8418.21	heat pump for electric or non-electric deep freezer , freezer or other refrigeration equipments	Electric refrigerator taking R600a as refrigerant
		841430	Non-CFC energy saving refrigerator	Exclusive ordinary refrigerator
	productively environmentally friendly	902300	Simulative animals	Only for education, school, museum
	3.4 other environmental products coherent with MEA	380893	Regulator for green plant growth	Promote plant growth, only used in harsh desert for wind break and sand solidation
